

ABSTRACT

The Indian Railways (IR) carries about 5.5 lakhs passengers in reserved accommodation every day. The Computerised Passenger Reservation System (PRS) facilitates the booking and cancellation of tickets from any of the 4000 terminals (i.e. PRS booking window all over the countries). These tickets can be booked or cancelled for journeys commencing in any part of India and ending in any other part, with travel time as long as 72hours and distance upto several thousand kilometers. In the given project we will be developing a website which will help users to find train details, book and cancel tickets and the exact rates of their tickets to the desired destination.

With the help of online booking people can book their tickets online through internet, sitting in their home by a single click of mouse. Using their credit cards people can easily get their tickets done within minutes.

DECLARATION

The project entitled “**ONLINE TRAIN TICKET RESERVATION SYSTEM**” was duly executed by **AKHILA ML (USN: 4MG19CS001)** and **MONIKA RANI (USN: 4MG19CS022)** V Semester, B. E in Computer Science and Engineering, G. Madegowda Institute of Technology, Bharathinagara, under the guidance of **Prof. PRADEEP BM, Asst. Prof of CSE**, G. Madegowda Institute of Technology, Bharathinagara, 2021-2022. We hereby declare that, the above-entitled project content work is executed only by us, for the partial fulfillment of the requirements for the award of the Bachelor degree in Computer Science and Engineering prescribed by Visvesvaraya Technological University “JnanaSangama”, Belgaum 590014.
